

# City of Bryan

## 2009- 2013 Capital Improvement Program

### Project: SP\_09\_205

**Project Name:** MLK Sidewalks and Streetscaping Ph. 2

**Project Year:** 2009

**Location:** Ear Rudder to Simms

**CIP Project:**

**Council District:** 1,2

**Type / Source:** Special Projects / Staff

**CIP Ranking:** 1

### Description

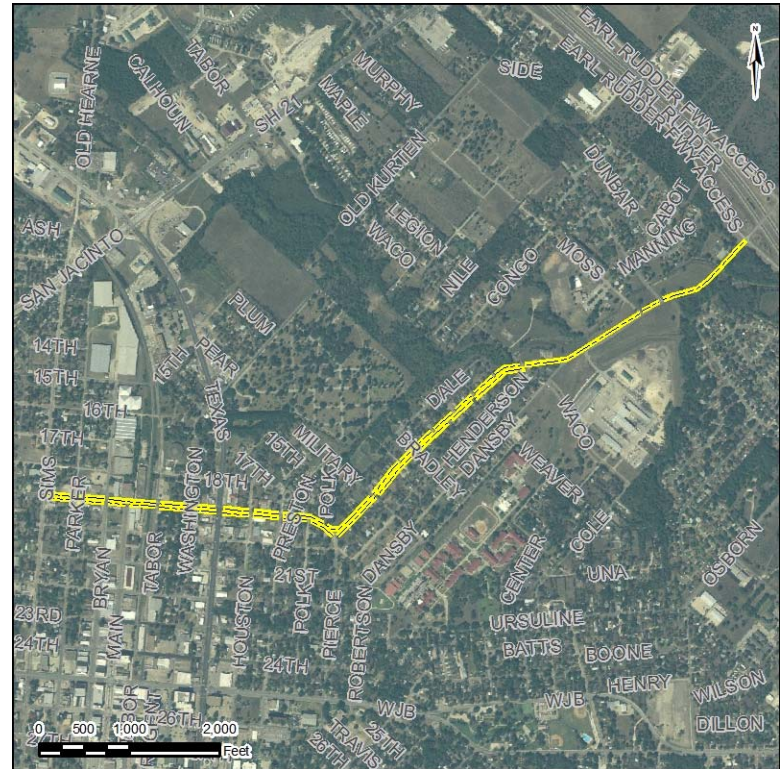

Installation of feet new and replacement of damaged sidewalks on both sides of MLK Street from Waco Street to Sims Street, excluding the Downtown section from Tabor to Parker Streets (about 6,250 ft). Sidewalks to be 6 ft in width where possible. Curb repair as needed, and replacing or installing new street lights where needed will be included. The project may include some streetscaping amenities as the project is developed. The goal of the project is to provide improved pedestrian access and to improve the appearance of one of the City's major corridors.

### Justification

This project will connect areas where there are no sidewalks and improve the condition of existing sidewalks. Existing sidewalks are very poor and have many structural failures. This is an area of very high pedestrian traffic and high visibility from the public, therefore would assist in the Image Strategy of the City.

### Funding

Funding	Original	Source	2009
