

Project Name: W. 28th Street
Project Year: 2010
Location: W. 28th from Congress to Palasota (angels gate drainage)
CIP Project:
Council District: 1
Type / Source: Streets / Department
CIP Ranking: 14

Description

This project includes reconstructing about 3,500 ft of 28th Street from Congress to Palasota. The street is to be widened and the open ditches would be converted to storm sewer with curb and gutter and sidewalks. Water and wastewater improvements will need to be included in the project. There is significant right of way that will need to be acquired.

Justification

The roadway is undersized for the functional classification and the traffic that uses the road. Additionally, there is street flooding due to inadequate drainage facilities. The open bar ditches also puts a drain on our Transportation Department for maintaining the drainage.

Funding

Funding	Original	Source	2010
Land Acquisition	\$300,000	General Fund	\$325,000
General	\$646,000	General Fund	\$699,000
Design/Survey	\$946,000		\$1,024,000
Drainage	\$1,400,000	General Fund	\$1,515,000
Street	\$1,006,000	General Fund	\$1,089,000
Water	\$500,000	Water Fund	\$541,000
Wastewater	\$420,000	Wastewater Fund	\$455,000
Const/ROW	\$3,326,000		\$3,600,000
Total	\$4,272,000		\$4,624,000
